Art Unit: 2856

1. The following is an examiner's statement of reasons for allowance:
2. While Wong teaches an apparatus with two holding parts for receiving and holding a sample while it is irradiated with a radiation beam and analyzed, Wong fails to teach or suggest the holding parts opening and closing at the position in which the analyzing takes place. Solomon teaches a means for feeding samples through an analyzing position, but does not teach two holding parts that open and close at the analyzing position. This limitation in combination with the other limitations of the independent claims renders them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
